Re: Cyber Criminal Ross Colby

I am writing because this person has destroyed my life through his criminal cyber activity. When he hacked into the Embarcadero Media sites, he hacked into my sbcglobal.net email account.

He used my email address to send emails to people in my address book. The emails he sent were repugnant and extremely criminal.

It was necessary that I delete 25,000 emails in my data base and delete my entire address book data.

I have never recovered from that hack.
